## Career Objective

Computer Science and Engineering undergraduate with hands-on experience in full-stack and Android development. Seeking to apply and expand expertise in software development, AI integration, cloud technologies, and IoT-based systems through impactful real-world projects.

## Education

**AMC Engineering College**                                                          **Expected 2026**
*Bachelor of Engineering in Computer Science*                                       *Bengaluru, India*

**Relevant Coursework:** Data Structures and Algorithms, Machine Learning, Operating Systems, Computer Networks, Database Management Systems, Software Engineering.

## Projects

**Visionary:** AI-powered healthcare platform with AI-based retinal scan, chatbot, wellness planner, sentiment tracking, and cardio risk prediction.

**FiNewz - Financial News Dashboard:** Real-time dashboard using multiple APIs; reached 200+ users during testing.

**Publication Summary Generator:** NLP tool to auto-generate categorized summaries of faculty publications. (In Progress)

**AI Wallet Co-Pilot:** Developing an AI-powered Web3 assistant that delivers real-time crypto wallet monitoring, transaction anomaly detection, and smart contract security insights. Built with React and blockchain API integrations. (In Progress)

## Internship

**EliteTech**                                                                        **Feb 2025 – Mar 2025**
*Web Development Intern (Remote)*

- Developed 5+ responsive web pages, improving load times by 25% and boosting user engagement.
- Built dynamic features with React, Python, APIs, and Node.js.

**Google Android Developer Virtual Internship · EduSkills Foundation**               **Apr 2024 – Jun 2024**
*Android Developer Intern*

- Built Android UI components and applied best practices for mobile development using XML and Java.

## Skills

**Programming Languages:** HTML, CSS, JavaScript, JSX, Python

**Frameworks/Tools:** React.js, Node.js, Next.js, Express.js, MongoDB, Firebase, REST APIs

**Developer Tools:** Git, VS Code, Docker

**Other Skills:** Cloud Computing, Responsive Design, Project Management

**Cloud Platforms:** Oracle Cloud (AI Vector Search), Google Cloud (Generative AI)

**Languages Known:** English (Fluent), Kannada (Fluent), Hindi (Fluent)

## Certifications

**Oracle University:** AI Vector Search Certified Professional

**Google:** Generative AI and Vertex AI Studio

**AWS:** Solutions Architecture

**Deloitte:** Technology Consulting

## Extracurricular

**Hackathon Participant:** Competed in college-level hackathons focused on AI and web development.

**Coding Club Member:** Contributed to peer learning and mini projects using HTML, CSS, and JavaScript.

**Technical Volunteer:** Assisted with fests and helped juniors with setup and debugging.
